

I will bouycot and activley fight against actions from the PAPPAS Group here in California.

Their plans for these unethical and illegal manipulations of media are dispicable.

These actions will backfire on the media and the FCC in the coming days and years.

Fair and balanced media is your responsibility and not stopping these actions is totally out of line.

A major disservice to the public, our government and the media at large.

Your actions can re-instate trust or create total distrust of management in media,

The FCC's leadership values and their ability to control media businesses responsibly.

Thank you.
